

OBJECTIONS AND REASONS FOR REFUSAL IN RESPECT OF PLANNING APPLICATION NE/22/00698/OUT LAND ADJACENT TO HALDENS PARKWAY, THRAPSTON - LOCALLY KNOWN AS THE GLEBE LAND

I wish to object to the above planning application on the following grounds:

- The proposed site sits in an area that has not been designated for development. Should the application be approved it will be in direct conflict with the current Joint Core Strategy.
- Should the application be approved there will be substantial damage to open countryside including the loss of productive agricultural land.
- The loss of rural setting to the Market Town of Thrapston and Titchmarsh Conservation Village.
- The loss of natural habitats and historical biodiversity contained within its fields, hedgerows, and trees and the loss of Important Historical Hedgerows.
- The cumulative impact on the local highway network, particularly the A605 and its junctions. This will not only impact the local area but the whole of the A605 as far as the junction with the A1. The A605 is already heavily congested.
- The site would have a detrimental visual impact on the area.
- The risk of increased flooding in both Thrapston and Titchmarsh.
- There is an insufficient local workforce to fulfill the number of potential jobs that the applicant claims will be generated by this development.
- The development will produce unacceptable increased levels of noise, air and light pollution.

Please see overleaf for any additional comments.
